NOTICE OF PROPOSED RULE MAKING

Adopted: December 5, 2001

Released: December 14, 2001

Comment Date : February 4, 2002

Reply Comment Date: February 19, 2002

By the Chief, Allocations Branch:

1. The Allocations Branch has before it a multiple docket *Notice of Proposed Rule Making* setting forth four separate proposals to amend the FM Table of Allotments, Section 73.202(b) of the Rules. Each petitioner states that it will file an application for construction permit at each locality and bid at auction if the channel is allotted. We believe that each proposal warrants consideration because it complies with our technical requirements and would serve the public interest.

2. This is a multiple docket *Notice of Proposed Rule Making* issued in response to a Commission *Public Notice* released October 2, 1998 (DA 98-1987). We are combining separate FM allotment proposals into a single *Notice of Proposed Rule Making*. Each proposal has its own docket and rulemaking number and the Commission's Reference Center will maintain a separate file for each docket. As discussed in the *Public Notice*, this procedure will conserve Commission resources and expedite the processing of FM allotment petitions by avoiding duplicative actions. We request comments and/or counterproposals for the following proposals:
